- Available in 36" bottom freezer that can be mounted built-in or integrated
- Choose from stainless steel plus 750+ colors and finishes. Available in 10 metal handle trim options plus left or right door swings

Introducing the Complete BlueStar Kitchen

Product Specifications:

Refrigerator Dimensions: 35.75" W x 26.187" D x 83.125" H

- *Not including handles or trim*

Opening Dimensions: 36" W x 24" D x 84" H

Electrical Requirements: 115V, 60Hz, 15 AMP circuit

- *Unit must be on a Non-GFI, dedicated outlet*

Water Pressure: 35-120psi

Model Configurations:

Right Door Swing BBB36-R

Left Door Swing BBB36-L

Enclosure Details

Enclosure opening needs to be 84" tall and 36" wide to accommodate unit. Unit is designed such that perimeter cabinet trim will fit flush with the face of the cabinet that is 24" deep. If there are plugs, cords, water lines, connectors, etc. that reside on the back wall of the enclosure, they will prevent the unit from being installed flush to the trim in a 24" deep cabinet.

Top View

Note that the trim (shown in orange) is preinstalled on cabinet and sits tight to the front of the 24" deep enclosure. If additional clearance is needed at back due to power cords, plugs, water lines that cannot be relocated, the depth of the enclosure will need to be enlarged accordingly.
